Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	2 Marks

Customer Problem Statement

A customer problem statement helps us understand the Employee / Laptop Requester's point of view and clearly identify the challenges they face while requesting a standard laptop.

For our project, it helps us focus on problems such as manual processing delays, lack of timely request-status communication, and repeated follow-ups during the laptop procurement and configuration process.

Clearly defining these problems helps the team understand the employee's needs and develop an appropriate solution that improves processing speed, task coordination, request tracking, and status communication throughout the laptop request process.

Section	Description	Details for Project
I am	Describe customer with 3–4 key characteristics — who are they?	An Employee / Laptop Requester who needs a standard laptop for work and submits a request through the ServiceNow Service Catalog.
I'm trying to	List their outcome or "job" — what are they trying to achieve?	Get the standard laptop request processed, approved, and configured quickly, while receiving clear updates about the request status.
But	Describe what problems or barriers stand in the way — what bothers them most?	Manual processing steps, delays in configuration, and lack of timely status updates can make employees repeatedly check or follow up on their requests.
Because	Enter the "root cause" of why the problem or barrier exists — what needs to be solved?	The laptop procurement workflow requires better automation after request approval, including automatic Catalog Task creation, Hardware assignment, and requester status communication.
Which makes me feel	Describe the emotions from the customer's point of view — how does it impact them emotionally?	Frustrated and uncertain because they may not know whether their request has been processed or when their laptop configuration will begin.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An employee requesting a standard laptop.	Get my laptop request processed and configured quickly	The procurement and configuration process involves manual steps and can be delayed.	Laptop configuration tasks are not efficiently automated after request approval.	Frustrated and uncertain about when my laptop will be ready.
PS-2	An employee who has submitted a standard laptop request.	Stay informed about the progress of my request.	I may not receive immediate confirmation when my approved request moves to the	Status communication is not automatically provided to the requester.	Uncertain and causes me to repeatedly check or follow up on my request.
